

* Validate Binary Search Tree

Iterative \rightarrow Morris
in order

or
recursive

~~Keep left & right~~

Keep min & max. for
each node & go from top

to bottom. Or to inorder traversal
comparing with previous node
value.

No: _____

Date: ____/____/____

as value range is $\left[-2^{31}, 2^{31}-1 \right]$ we
can use long or Integer to ~~can~~ min,
max values.
