

No: _____

Date: ____/____/____

* Island Perimeter

Begin to end & count adjacent cells without land or out of grid.

or keep counting lands upcomin
& then ($4 \times \text{lands} - 2 \times \text{neighbors}$).

or do dfs or bfs. Begin from top & go through grid to find a land. Then do dfs or bfs. change 1 (to ~~2~~ or -1) to indicate already visited. for each land do $4 \times \text{dfs}$ or $4 \times \text{bfs}$.
